TO CALL ANY BLUFF.

Germany's Attitude Moves the Senate Committee on Military Affairs.

HONOR OF UNCLE SAM TO BE UPHELD.

Passes on Important Matters Pertaining to the Army Appropriation—Root Staff Retained.

Washington, Jan. 29.—The Venezuelan situation, especially the attitude of Germany, was discussed by the senate committee on military affairs, and the situation influenced the committee on some matters pertaining to the army appropriation bill, among which was the decision to accept the house provision relating to transports; that they be retained in the service. The committee also provided for an increase of electricians, skilled gunners, machinists and sergeants, and others who take care of and handle guns in the seacoast defenses. Some other additions were made in the bill with a view of improving the service. The discussion was general and earnest, and the conclusion reached, as stated by a member of the committee, was that the United States make it plain that the honor and dignity of the country would be maintained, and that Germany should not be allowed to "bluff" the government by any attitude she might assume.

Quay's Latest Move.

Washington, Jan. 29.—Senator Quay, in charge of the omnibus statehood bill, has introduced that measure as an amendment to each of two appropriation bills, the agricultural and sundry civil bills. The document was sundry civil bills. The document was handed in very quietly and the occurrence attracted no attention at the time. The amendments contained in each case all the provisions of the bill as it came from the house, and provided for the admission of Oklahoma, New Mexico and Arizona as states of the Union. Senator Quay would not discuss the purpose of this step, but his friends practically admit that it is the intention so to join the measure with the bills providing money for the conduct of the business of the government as to render it necessary to accept statehood in order to secure the passage of the bills.

Captain Brownell Not Amenable.

Washington, Jan. 29.—The attorney general has rendered an opinion in answer to an inquiry of the secretary of war to the effect that Captain Brownell, who was a member of a volunteer regiment, and whose name has been mentioned in connection with the killing of Father Augustin, in the Philippines, and whose conduct has been a subject of discussion in congress, is no longer amenable to either civil or military law for his actions while in command of a Vermont regiment in the Philippines.

Root Staff Bill Retained.

Washington, Jan. 29.—The army appropriation bill which was reported to the senate contains the Root staff bill as reported from the committee on military affairs some time ago; also the retirement bill, which also was reported by the same committee.

Held For Mutiny.

Liverpool, Jan. 29.—The British steamer Brunswick, Captain Brown, from Maranhao, Brazil, via Funchal, island of Madeira, arrived here and landed five survivors of the British bark Veronica, Captain Shaw, from Ship Island, Miss., Oct. 6, for Montevideo, who were picked up at sea by the Brunswick before arriving at Funchal. The men reported that the Veronica was burned at sea Dec. 20. The police have detained four of them on suspicion of having mutined and murdered Captain Shaw and seven of the crew of the Veronica, after which they are alleged to have set fire to the ship.

Ohio Editors.

Columbus, Jan. 29.—The eighteenth annual convention of the Associated Ohio dailies with between 100 and 150 delegates closed its sessions at the Hartman hotel after an interesting meeting, at which addresses were made by representative newspaper men. The newly organized Ohio Newspaper Federation, of which Malcolm Jennings of Lancaster is president, met at the Great Southern hotel. An address of welcome was made by Governor Nash and reports of officers and timely and interesting papers were read.

British Bark Founders.

London, Jan. 29.—It is announced that the British bark Powys Castle, Captain J. Atkins, from Tacoma Oct. 27 for Queenstown, was lost off Staten island (at the southern extremity of South America) Jan. 9, two of the crew being drowned. The rest are safe.

GOOD RECORD

Made by the Federal Court for the Eastern District of Kentucky—Speaks Well for Judge Cochran.

The Enquirer says, in its Covington news, that the officers composing the Federal Court for the Eastern District of Kentucky are proud of the report of the Attorney-General of the United States showing the work done by this court during the past fiscal year.

The report shows that there were 207 convictions and fourteen acquittals under the internal revenue laws, three cases nolle, eleven convictions, two acquittals and four cases nolle under the postal laws. On the docket in this district there remain forty-four internal revenue cases, fourteen postoffice cases, eight election cases and twenty miscellaneous cases.

In the Western District of Kentucky during the same period seventy-six cases were tried and disposed of, and there remain on the docket sixty-four cases. In the Southern District of Ohio there were sixty cases disposed of and twenty-six cases remain to be tried.

This record shows that the Eastern court has not been idle by any means.

PARALYSIS

Attacks Italy's Foreign Minister While Contending With the King.

Rome, Jan. 29.—Foreign Minister Prinetti had an attack of paralysis of the right side while being received in audience by King Victor Emmanuel. He was removed to his home in a serious condition.

The ministers were holding their usual semi-weekly conference with the king of the Quirinal when Signor Prinetti, who was addressing his majesty, suddenly threw up his arms, staggered and would have fallen but for the fact that he was caught by his colleagues. The incident caused great excitement. The king rang for assistance, and Minister of Commerce Bacelli, who is a physician, was able to do what was immediately necessary. The king, who is specially attached to Signor Prinetti, was much affected.

LEVI ANKENY.

Choice of Washington Republican Caucus For United States Senator.

Olympia, Wash., Jan. 29.—In the Republican caucus, participated in by 76 members of the legislature, Levi Ankeny, the Walla Walla banker, was declared the choice for United States senator. The required number of signatures to the caucus as secured after an entire day in which the King county delegation was the storm center of the contending forces. Thirty-six Republicans declined to join in the caucus.

Levi Ankeny was born near St. Joseph, Mo., in 1844, and came west with his parents in 1850. Twenty-five years ago Mr. Ankeny established the first national bank at Walla Walla, and is now president of six national banks in Oregon and Washington. He is also largely interested in agricultural and grazing lands in the northwest. Mr. Ankeny has never before held political office.

Saved by Formalin.

PROVIDENCE, R. I., Jan. 28.—The first demonstration in Rhode Island of the efficacy of formalin in the treatment of septicæmia has been on Mrs. Fred Woolsey, by Providence and Pawtucket physicians. On January 23 the patient was critically ill from puerperal blood poisoning. Her temperature was 106 and her respiration 44. An injection of formalin was made as a last resort and the patient rapidly improved. Within twenty-four hours normal conditions returned and her improvement has since been constant.

The Tariff's Off Now.

[Cynthiana Democrat.]

All along the Mayeville Ledger has claimed that there was no such thing as a tariff duty on coal. Editor Davis has just arisen from a bed of sickness, and we are all glad that he is well again. During his illness it is likely that he sought forgiveness for his sins and saw a great light, for about the first thing he said when back in the editorial harness was that the removal of the tariff of 67 cents a ton on coal would have little effect on the price.

A. J. Meglemry, who claims to be a dentist, was fined \$75 at Bowling Green this week for practicing without a diploma. His troubles are not ended yet, for the State Dental Board is after him for alleged offenses, numerous and serious. The charge against him is that he has been using brass instead of gold for filling teeth. Meglemry's practice of dentistry extends over three States—Kentucky, Indiana and Ohio. He had a partner named Wyman.

MANGLED A DOZEN MEN

Explosion of Natural Gas Wrecks a Portion of a Packing Plant.

FOUR TOILERS TAKEN OUT DEAD.

Injuries of Some of the Others Likely to Prove Serious—Fluid Accumulated in the Cellar.

Fort Wayne, Ind., Jan. 29.—Four men were killed, one fatally and three others seriously injured, and a half a score of others more or less severely hurt in an explosion which wrecked a large section of the Eckart Packing company's plant. The dead: John Foltz, Fort Wayne; "Red" Matthews, Plymouth, Ind.; Henry Piepenbrink, Fort Wayne; Conrad Miller, Fort Wayne. Seriously injured: John Yorst, fatally; William Kintz, John Kolbach, Clem Keller.

The explosion is believed to have been due to an accumulation of natural gas in the cellar beneath the section of the factory destroyed. There were a score of men at the several departments of that section of the plant and scarcely one escaped injury of some sort. The force of the explosion was terrific, completely wrecking a section of the building, 50 by 100 feet and two stories in height. The dead and injured were buried in the ruins and the peril of those yet living was increased by flames following the explosion, and the escape of large quantities of ammonia stored in the basement. The fire was soon extinguished and the work of rescue began. Foltz, Matthews, Miller and Piepenbrink were dead when taken out. The property loss will probably reach \$15,000.

Unable to Agree.

Chicago, Jan. 29.—The Indiana coal men, against whom indictments were voted by the special grand jury, have been unable to agree with State's Attorney Dineen as to a statement of facts. The operators will now be asked to give bond so that their cases may come up for trial by jury in the usual way. It was expected that an agreement could be arrived at and that the personal indictments would be dismissed. The state it is said, desired the indicted coal men to admit violation of the Illinois statutes and to rely for their defense upon the unconstitutionality of the laws. The operators declare their transactions came within the scope of the interstate commerce laws and not within the Illinois statutes.

Coal Prices to Descend.

Philadelphia, Jan. 29.—The Philadelphia and Reading Coal and Iron company's full quota of 32 collieries is being worked. The output averages from 1,300 to 1,400 tons daily. General Manager Anderson of the coal company is beginning to take an optimistic view of the situation and predicts that a break from the present high prices asked by the independent operators is bound to come very soon. It is stated on good authority that the railroads are determined to break up the speculation feature of the anthracite business or the holding of coal in transit by independent shippers, with the possible view of keeping up high prices.

Statement From Engineer Davis.

Plainfield, N. J., Jan. 29.—Chief of Police Kieley admits that he has obtained an important statement from Davis, the engineer, who sustained probably fatal injuries in the wreck at Graceland, N. J., and also from McCarthy, his fireman. Davis was told he could not live, and was advised to do all that he could to explain the circumstances of the accident and throw any light he could upon others connected with the New Jersey Central road. Chief Kieley says both statements, which are regularly sworn to, will be made public at the proper time by the proper officials.

Colombians Satisfied.

Panama, Jan. 29.—No comments on the beginning of the canal treaty are made by local newspapers, but the people here are generally satisfied. They are enthusiastic over the prospect that the canal will finally be built by the United States, in which country the people have confidence, without the intervention of European powers, which are now looked upon with disfavor. The treaty is considered fair and mutually advantageous, although some Colombians think the annual rental might have been put at a more equivalent rate.

In the House.

Washington, Jan. 29.—Mr. Lacy (Ta.) offered an amendment to authorize 50 children of native Porto Ricans to be admitted to the Carlisle Indian school.

JUBILEE CONVENTION

Of Kentucky Young Men's Christian Associations to Be Held at Lexington February 12th-15th.

The jubilee convention of the Young Men's Christian Associations of Kentucky will be held at Lexington, Feb. 12th-15th. This convention will commemorate the semi-centennial of the beginning of the association movement in Kentucky (associations having been organized in Louisville and Lexington in 1853); also the quarter centennial of the organization of the State work, the first State convention having been held at Owensboro in 1878. The State Executive Committee has arranged an unusually strong and attractive program. Among those who will present vital topics at the convention are Messrs. Luther D. Wishard, Fred B. Smith, E. T. Colton and J. F. Moorland, of New York; James F. Oates, A. M. Bruner, K. A. Shumaker and John W. Hansel, of Chicago; Walter B. Abbott, of Nashville; S. D. Gordon, of Cleveland; Rev. Frank M. Thomas, Henderson, and other well-known speakers actively identified with the work. The singing will be led by a male chorus of sixteen voices from the Henderson association.

Five hundred delegates are expected from the sixty-five associations in the State. In addition, men members of evangelical churches in communities where there are no associations, and interested in Christian work among young men, are invited to attend and participate in the convention as corresponding members. A limited delegation from such communities will be entertained in the homes at Lexington, provided application for credentials, giving name and address of pastor or clerk of church, is sent to the State Secretary by Feb. 7th.

The various railroads in the State have arranged a rate of one fare for the round trip to delegates and visitors attending the convention.

Further facts, detailed program, credentials, &c., can be had from any association secretary, or by addressing Henry E. Rosevear, State Secretary, Fourth and Broadway, Louisville.

TOBACCO DISPLAY.

Kentucky Will Be Well to the Front in This Department at St. Louis' Worlds Fair.

Every tobacco grower in Kentucky is to be asked to submit samples of the "weed" for the exhibit to be made at the World's Fair. This was decided upon at the meeting of the Tobacco Exhibit Committee of the Kentucky Exhibit Association. By this method the very best display possible will result and all sections of the State will have a part in the big showing.

Mr. Charles D. Campbell, Chairman of the committee, and two other members thereof—Messrs. Joseph Robinson and A. P. Barnard are in St. Louis this week in consultation with Mr. Frederic W. Taylor, Chief of the Department of Agriculture, in which building the tobacco exhibit will be made. It is possible that they will convince Mr. Taylor that all of the tobacco displays at the exposition be put in one place. If they do, Kentucky, leading the world in this production and manufacture, will be more conspicuous than under any other circumstances.

The samples awarded the premiums at the Maysville fair Feb. 21st will form a part of Kentucky's exhibit at the World's Fair.

"The Belle of New York" To-night.

This season's "The Belle of New York" Company is pronounced better in every respect than it was in the past. Although "The Belle" is the most popular and brightest and has more harmonious catchiness than any other musical production of recent years, it requires more talent in its players than any of the others. The characterizations are of such pronounced types and offer such strong contrast to each other that players lacking in experience and mimetic talent would fall flat. For this reason it can be readily seen that the management made special efforts to get the best men and women in their particular lines.

The Postoffice Department announces the following appointments for the routes to be established here next Monday: Charles A. Purnell, James Stewart, B. K. Muse, Charles G. Gault, Charles; James McNamara, Elmer G. Bridges, W. W. Davenport, J. B. Jones, subs.

Mrs. Rebecca Porter Bartlett, of Memphis, left \$60,000 by will to endow a chair at the Southern Baptist Theological Seminary at Louisville.

ALLIES TURN IT DOWN.

Proposal That Claims of Others Be Included in the Arrangement.

JOINT REPLY TO MINISTER BOWEN.

Refuse to Place the Other Nations on an Equality With the Co-operating Powers—Developments to Date.

London, Jan. 29.—Great Britain, Germany and Italy have sent a joint reply to Minister Bowen, refusing to accept the proposal that all the countries having claims against Venezuela should be placed on an equality with the three co-operating powers.

It is gathered here from the highest authority that the publication by the London foreign office of the fact that Great Britain and not Germany sought the alliance against Venezuela was brought about by reports from the German foreign office. It is said that Germany had threatened to publish the diplomatic exchange between the British and German foreign offices unless Great Britain immediately should bear the responsibility for the alliance. This threat was induced by the anti-German feeling aroused in the United States by events in Venezuelan waters.

Venezuela's Debt.

Washington, Jan. 29.—Minister Bowen has given out a statement of the diplomatic debt of Venezuela. In round numbers this debt amounted on Dec. 31, 1901, to something over \$14,000,000, and consisted of claims which had previously been adjusted since that date, owing to the almost constant state of revolution which has prevailed in Venezuela no payments having been made on the debt. Mr. Bowen's plan provides that 13 per cent of the customs receipts of all the Venezuelan ports shall go toward the payment of this debt. This arrangement, it is stated, will interfere in no wise with the plan of Mr. Bowen submitted to the powers for the settlement of the adjudicated claims. For the payment of the latter 30 per cent of the customs duties of the two ports of Puerto Cabello and La Guayra have been offered in pledge by Mr. Bowen. These ports were selected because they would be the last to fall into the hands of the revolutionists.

Dedication World's Fair Grounds.

St. Louis, Jan. 29.—The grounds and the buildings of the Louisiana Purchase exposition will be appropriately dedicated on the 19th of April next by the president of the United States, and an address will be delivered by former President Grover Cleveland. The grand marshal of the day will be Major General Henry C. Corbin, United States army. The military pageant will precede the program of dedication. The column will include all branches of the service. It will be composed of two brigades of regular troops and several brigades of national guards. It will be the largest military display ever made in the Mississippi valley in times of peace. The dedication exercises will take place in Liberal Arts Palace. The fireworks display, which will be given in the evening of the day of dedicating the exposition, will be on a scale never before attempted.

Former United States Senator.

Seattle, Wash., Jan. 29.—John Beard Allen, formerly United States senator from Washington, died suddenly at his residence here of angina pectoris. Senator Allen was born at Crawfordsville, Ind., in 1845, and came west while a young man. He always had been prominent in Republican politics in the northwest. In 1882 he was elected territorial delegate to congress, and upon the admission of Washington as a state in 1889 was chosen as one of the first United States senators, drawing the short term.

Revolution In Honduras.

San Francisco, Jan. 29.—William Davidson, a mining man, who has arrived here from the lower coast, reports that a revolution was expected to break out in Honduras at the time he left Tegucigalpa as the result of a disagreement over the returns of the late presidential election. There were three candidates for the presidency, and the congress had not been able to decide which one was elected.

Delayed by Fog.

New York, Jan. 29.—A number of ocean liners due here have not been reported, and it is supposed they were waiting outside for the heavy fog to lift. They are the Celtic from Liverpool, Bordeaux from Havre, Nord Amerika from Naples, Rhine from Bremen, Amsterdam from Rotterdam, Auguste Victoria from Hamburg and the Teutonic from Liverpool.

Nearly all the Eastern railroads centering in Chicago have served notice on Western connections that until conditions change they cannot accept any more "dead freight." Until further notice efforts of Eastern lines will be concentrated upon moving perishable freight and coal.

The Bath County Tax Supervisors have reduced the assessment of the South Pennsylvania Oil Company in that county from \$500,000 to \$350,000. This company has forty-one wells at Ragland that will, it is said, average a production of twenty barrels per day. A ten-barrel well is calculated to be worth about \$10,000. If the South Penn Company's forty-one wells produce only ten barrels each per day that would make them worth \$410,000. The Licking Valley Company has twenty-two wells, nine of which only are being pumped and are said to produce ten to eleven barrels. They were assessed at \$213,000, but their assessment was reduced to \$150,000.

Embroideries.....

Nainsooks, Cambrics, Swisses are the foundations. And they are fine—not uneven, not coarse, not loaded or sized with starch. These are matched sets, including full and demi-full flouncings, allover, edgings and insertings in all widths, beadings, galloons and motifs that may be separated. There are delicate effects in tuckings and French embroidery plain or combined with lace. There are elaborate designs in demi-flouncings for skirt ruffles and corset covers both in blind and open-work effects. St. Gall hand-run shuttles do all the work. Margins are wide, scallops are button-holed and deep, strong and cut out. The same patterns running through several widths are appreciated by women of fastidious taste. Prices mean little apart from the goods. Come here and SEE what values you can get in edges and insertings for 5c., 10c., 15c. In allovers for 50c., 75c. The people of Dover are again in the midst of a coal famine, and many families are all but suffering, says the News. A number of coal houses are entirely empty, and there is not a lump in the town for sale. The News intimates that if a supply is not soon received, the people may take possession of some of the coal trains passing through and help themselves.

An agricultural and live stock writer says no new breed of cattle has ever sprung more quickly into popular favor than have the Polled Angus. The many prizes which this breed carries off at the stock shows, their uniform color and absence of horns, combined with their early maturing qualities, commend them very highly in public estimation. They are peculiarly adapted to the conditions which prevail in the corn belt and are as much a complement of the field of corn as a flock of sheep are of a turnip or rape field. No man can make any mistake who places a good herd of "Doddies" on his corn and clover farm.

CHAS. A. WALTHER, Tailor.

It may seem idle talk to say much about Spring Clothing at this time of year. There are some few people who think it too early to place an order, but in having your Clothes made to measure—and they really are the only kind that fit and last—two things should be considered. One is,

"He Who Takes Time By the Forelock" Never Gets Left!

So he who takes advantage of opportunities when presented, and selects his goods and places his order for whatever he may need in wearing apparel before the season fairly opens is never left. For why? As usual the good things go first, and he who gets the first is like the "proverbial bird," gets the best that's going. The second thing to be considered is tailors. When spring is here they are very busy, and in consequence late orders are delayed which cause annoyances otherwise avoided. Come and look at my line. Over two thousand styles to select from. Suits made here by the best skilled tailors from \$23 up. Those made by the Globe Tailoring Company, for which I am agent, from \$15 up.

A GREAT TRUTH.

How it Has Spread From Home to Home in Maysville.

In every part of Maysville; in the homes of the wealthy, in the humble abode of the man of toil, 'tis now a well-known fact, a great truth, that Doan's Kidney Pills have brought more comfort to backache sufferers and cured more sick kidneys than any medicine of modern times.

Mrs. M. C. Chisholm, of 343 East Second street, says: "Mr. Chisholm speaks in high terms of Doan's Kidney Pills. He procured them at J. Jas. Wood & Son's drug store, corner of West Second and Market streets, and their use proved them to be an effective kidney remedy. I have heard others express their appreciation of Doan's Kidney Pills. A medicine which cures kidney trouble is a most desirable one of which to know."

For sale by all dealers. Price 50 cents a box. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States. Remember the name—Doan's—and take no substitute.

But we hope to meet our loved one
On that bright and happy shore.

That was not quite complete,
So God took our darling Annie
To fill the vacant seat.
